THE WORLD MEDICAL CONGRESS

(SUPPLEMENT)

1 August 1953

There follows a list of individuals who attended the Communist-inspired World Medical Congress, which was held in Vienna 23-26 May 1953. This list supplements the one contained in a preliminary summary prepared at the time of the Congress, which listed individuals who had been connected with the abortive Monte Catini Congress, which had been scheduled for 16 October 1952, and with other preparations for the Congress.

Note that the preliminary summary erroneously gave the dates of the Vienna Congress as 24-27 May.

The present list may contain errors in spelling. It is also not complete: of a claimed attendance of about 200 persons, representing 32 countries, the present list includes 163 names from 30 countries.

Persons who presented reports to the Congress are underlined. An asterisk indicates that the person was listed in the preliminary summary.
